Agenda for today

MAGIC+LST1 Meeting

Thursday 24 Sept 2026, 14:00 → 16:00 Europe/Berlin

Anna Campoy Ordaz (Departament de Física, Universitat Autònoma de Barcelona and CERES-IEEC), Elia Do Souto Espiñeira (CIEMAT),

Giacomo D'Amico (Institut de Física d'Altes Energies (IFAE)),

Jelena Striskovic (Josip Juraj Strossmayer University of Osijek, Department of Physics), Miguel Molero Gonzalez (IAC)

14:00 → 14:10 Introduction

10m

Speakers: Anna Campoy Ordaz (Departament de Física, Universitat Autònoma de Barcelona and CERES-IEEC), Elia Do Souto Espiñeira (CIEMAT), Giacomo D'Amico (Institut de Física d'Altes Energies (IFAE)), Jelena Striskovic (Josip Juraj Strossmayer University of Osijek, Department of Physics), Miguel Molero Gonzalez (IAC)

14:10 → 14:40 Paper walkthrough: Constraints on axion-like particles from a combined analysis of blazars observed with MAGIC and LST-1

30m

Speakers: Francesco Schiavone (Bari University), Giacomo D'Amico (Institut de Física d'Altes Energies (IFAE)), Ivana Batković (CTAO Project Science Office), Michele Doro (INFN Padova)

alp_magiclst_v1.0...

Paper_Walkthrou...

14:40 → 15:00 Dark matter searches with MAGIC in dSph with simulation-based inference

20m

Speaker: Miguel Molero Gonzalez (IAC)

15:00 → 15:10 Conclusions & AOB

10m

Speakers: Anna Campoy Ordaz (Departament de Física, Universitat Autònoma de Barcelona and CERES-IEEC), Elia Do Souto Espiñeira (CIEMAT), Giacomo D'Amico (Institut de Física d'Altes Energies (IFAE)), Jelena Striskovic (Josip Juraj Strossmayer University of Osijek, Department of Physics), Miguel Molero Gonzalez (IAC)
